**Kids Class:** My approach for this class is to create projects for students that teach 1 or 2 skills for each lesson but also allow for personal expression. I work in broad themes, so there will be an overall idea for each lesson with lots of room for self expression.

**Adult & Teen Class:** Teens building portfolios for college or who just love art, and adults seeking a creative outlet and time to work are welcome for this open-studio style class. Everyone works on their own desired project and the instructor offers assistance, advice, and guidance as you go at your own pace. The teacher will offer suggestions for exploration, but students should come with ideas they wish to explore. All painting and drawing media are acceptable, as well as light sculpture.

#### Students furnish their supplies:

Adults & Teens bring what they wish to work with.

For the kid's class you must have a bag, tackle box, or lunch box to hold materials comfortably (NO PLASTIC BAGS) items: regular pencil, eraser, hand-held pencil sharpener, basic colored pencils, fine and very fine Sharpie markers or other permanent pens. Small sketch pad in the neighborhood of 8 x 10 inches, medium sized drawing pad in the neighborhood of 12 x 18 inches (opt for thicker paper if possible like 80 lb. but don't break the bank), a simple watercolor set (not in tubes).
